Detailed Feedback

2 Incorrect

Q1. Identify the core stylistic deviation in Joyce's stream of consciousness technique relative to traditional Victorian narrative structures.

✔

Your Answer:

The deliberate abandonment of chronological linearity and coherent punctuation.

💡 INSTRUCTOR INSIGHT

Precise. The rejection of ordered, punctuated thought was a hallmark of the modernist attempt to capture raw, unfiltered psychological states, contrasting sharply with the ordered moral narratives of the preceding era.

Q2. Which poetic movement primarily advocated for "direct treatment of the 'thing' whether subjective or objective"?

✘

Your Answer:

Symbolism

Correct Answer:

Imagism

📖 HISTORICAL CONTEXT

Symbolism focused on expressing the inexpressible through suggestive imagery. Imagism, formulated notably by Ezra Pound, explicitly demanded economy of language and directness, rejecting the decorative elements of earlier movements.

Q3. The 'objective correlative' was a critical concept popularized by which modernist essayist?

✔

↳ T.S. Eliot

2. Flow of Events

2.1 Basic Flow

1. The use case begins automatically when UC5 (Take Practice Quiz) or UC12 (Take Level Assessment Test) submits answers for evaluation.
2. The system retrieves evaluated answers, calculates score percentage, and identifies correct vs. incorrect responses.
3. The system displays the summary score board (score %, correct ratio, time taken).
4. The system presents a detailed question-by-question review showing submitted choices, correct keys, and explanation notes.
5. The Learner clicks "Continue".
6. The use case ends, returning the Learner to the lesson overview or roadmap interface.

2.2 Alternative Flows

2.2.1 Level Assessment Passed ($\geq 90\%$)

If the submission originates from UC12 (Level Assessment Test) and the score is 90% or higher:

1. The system displays a prominent "Level Mastery Achieved!" celebration dialog.
2. The system triggers the extension point **6.2 Unlock Next CEFR Level** to unlock the subsequent level on the roadmap (UC1).
3. The flow proceeds to step 4 of the Basic Flow.

If the submission originates from UC12 and the score is below 90%:

- 1. The system displays a message: "Score below 90%. Level advancement requires 90%+ on this test or 100% roadmap completion."
- 2. The system offers options to "Retake Assessment" or "Review Missing Lessons".
- 3. The flow proceeds to step 4 of the Basic Flow.

3. Special Requirements

3.1 Visual Feedback Requirement

5 / 6

Score indicators must clearly display pass/fail status using distinct visual hierarchy (e.g., Green/Badge for $\geq 90\%$ level pass, Yellow/Red for retake required).

4. Preconditions

4.1 Submission Completed

The Learner must have submitted answers via UC5 or UC12, and the system grading engine must have completed processing the submission.

5. Postconditions

5.1 Session Resolution

Assessment attempt data is archived in the user profile, and progression rules are updated.

6. Extension Points

6.1 Update Learning Progress

Location: Step 3 of Basic Flow. **Description:** Extends to **UC9: Track Learning Progress** to update real-time statistics.

6.2 Unlock Next CEFR Level

Location: Step 2 of Alternative Flow 2.2.1. **Description:** Extends to **UC1: View Learning Roadmap** to change the lock status of the next CEFR level from "Locked" to "Available".
